- Congradulations to Brazil!

Respect to CRIRSCO

- Since 1994, CRIRSCO has been engaged in providing an international mineral reserve reporting codes and guidelines
- Promoting uniformity, excellence and continuous improvement in national and international reporting standards for Mineral Exploration Results, Mineral Resources and Mineral Reserves through consultation and cooperation.

Achievement in China

- A lot of Researches on market
- Standardize the report for Exploration Results, Mineral Resources, Mineral Reserves

Systems in China

- Mineral Resources & Reserves Management System
 - Helps government of China to manage the mining industry
- Resources Assessment System
 - Based on big data, science and technology
 - Drive development in mining industry

Support from Government

- Ministry of Land and Resources of the People's Republic of China
 - conduct comparative studies on the evaluation standards of the members of Crisco

Support from Companies

- Actively explore the overseas markets
- Set global-wide plan for future exploration and development
- Trained more than 100 registered members and fellows

Important of Chinese Market

- Potential market of China can bring CRIRSCO more power in the globe mining industry

Potential to Join CRIRSCO

- We have supports from many government departments
- We have supports from large Chinese mining companies
- We work hard to explore the path to join CRIRSCO, and to learn from the past experience of member states

THANK YOU VERY MUCH!

WELCOM TO CHINA!
